

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

It must provide a means whereby a voter can vote for any person for any office, although such person may not be a candidate for such office;

Such counters shall be so attached to the machine that by means of labels or numbers they can be clearly identified with the devices on the face-plate by which they are operated;

It must be provided with a lock or locks by means of which the operation of the devices and the movement of the voting, counting, and registering mechanism may be absolutely prevented and prohibited, whenever such prevention and prohibition is required by law.

All machines furnished under the provisions of this section shall be delivered by the secretary of state to the clerk of the town wherein they are to be used, at the expense of such town, and said clerk shall be responsible for their safe-keeping, and the authorities of such town shall furnish said clerk with sufficient police protection to enable him at all times, whether such machines are in use or not, to properly protect them from injury or damage: *Provided, however,* that such machines shall remain the property of the state, and when their use shall for any reason be discontinued they shall be returned to the secretary of state by the town clerk at the expense of the town. Whenever any machines are furnished under this section to the city of Providence they shall be delivered to the board of canvassers and registration, and the duties prescribed for town clerks by this section in regard to their custody, safe-keeping, and return shall devolve upon and be performed by said board.

The use of any machine, purchased and supplied under the provisions of this section, may be discontinued at any time by an order of the secretary of state filed with the town clerk of the town in which such machines are to be used, and the secretary of state shall order the discontinuance of the use of such machines whenever he shall receive a certified copy of a vote requesting such discontinuance, passed by the town council or the board of aldermen of any town or city in which such machines are being used; but such certified copy shall be filed with the secretary of state not later than one month before any election at which the machines are to be used.

SEC. 6. Any town or city, by vote of its town or city council, may purchase or lease machines and

may order their use in any one or more voting-places of such town or city, and said councils may also order the experimental use of leased machines at any election in one or more voting places of such town or city, and the use of such machines shall be valid for all purposes of the election. Any such order shall be made not later than one month before the day of the election at which such machines are to be used, and a certified copy of such order shall be forthwith filed with the secretary of state, and such order shall show the number of machines to be used, the date of the election, and the voting places at which they are to be used, whereupon the secretary of state shall cause such machines to be examined and to be numbered as required by section 7. Any order made under this section shall continue in force until revoked by vote of the town or city council, but such revocation shall be made not later than one month before the election at which the use of such machine is to be discontinued, and a certified copy of the revoking order shall forthwith be filed with the secretary of state. Any purchase or lease of machines under the provisions of this section shall be at the expense of the city or town making such purchase or lease, and at each voting-place where such machines are used at least one machine shall be furnished for every six hundred qualified electors, and for every fraction of six hundred qualified electors in excess of one hundred, whose names are upon the voting-list used at such voting-place and entitled to use such machines: *Provided, however,* that no machine purchased or leased under the provisions of this section shall be used in any state or town election until such machine has been examined by the secretary of state or by an expert mechanic appointed by him, and is found by the secretary of

state to comply with the requirements of this act. The expense of such examination not exceeding ten dollars for each machine shall be paid by the city or town purchasing or leasing the same.

SEC. 7. Every machine purchased or leased under the provisions of section 5 and 6 shall be numbered by the secretary of state, and such number shall be inscribed upon the machine in some conspicuous place, and thereafter such machine shall be designated and identified by such number in all records, reports, certificates, and statements required to be made by this act or by any other provision of law, wherein such machine is to be designated. It shall be the duty of the secretary of state to keep a record of the number of each machine and of the voting-place in which such machine is used, and to that end he may require the person who has custody of any machine to furnish him with the necessary information for such record.

Machines to be numbered by the secretary of state.

SEC. 8. In all cases where machines are to be used for a state election or for a town election held on the same day as a state election, the secretary of state, and in all cases where machines are to be used for town elections only, the town clerk, shall prepare a diagram of the face-plate of the machines to be used at such election, and such diagram shall show the manner and order in which the devices and labels shall be arranged upon such face-plate. Such diagram shall be made up as nearly as possible to conform to the provisions of section 22 of chapter 11 of the General Laws, entitled "Of elections by secret ballot," in regard to the arrangement of the offices and candidates and party columns on the paper ballot; except that whenever the face-plate will permit the list of candidates shall be arranged in parallel party rows running horizontally across the face-

plate. All officers charged with the duty of arranging the devices and labels upon the face-plate of any machine for any election shall be furnished with a copy of such diagram at least three days before the date of such election, and shall be governed thereby in the performance of such duty.

Labels to be
furnished at
expense of
state.

SEC. 9. The labels required for any machine to be used at a state election, or at a town election held on the same day as a state election, shall be printed and furnished at the expense of the state and shall be supplied by the secretary of state to the clerk of the town where such machine is to be used. Such clerk shall certify to the secretary of state, not later than ten days before such town election, the offices to be voted for thereat, the names and addresses of the candidates for such offices, and the party name under which such candidates were nominated, and any other information necessary to enable the secretary of state to prepare labels uniform in size, type, color, and appearance with those prepared by him for the state election, and in like manner such clerk shall certify to the secretary of state a copy of each question to be submitted to the electors of such town so that suitable labels may be prepared and furnished therefor. Labels required for machines to be used at town elections only shall be prepared and furnished at the expense of such town, and by the clerk of the town. All labels provided under this section shall be printed in black ink on clear, white material in plain clear type, as large as the label space will permit, and three sets of such labels shall be furnished for each machine. Upon the label for questions the statement of the question may be abbreviated to meet the requirements of the space provided, and shall be printed in type that can be easily read, with the words "Yes" and "No," or "Approve" and

“Reject,” whichever may be required, for the voter to indicate his vote for or against any such question.

The officers required by this section to provide labels shall also prepare a sample ballot, which may be of a reduced size, in the form of a diagram or fac-simile of the face-plate of the machine after the labels and devices have been arranged thereon ready for the use of the voter. Such sample ballot shall clearly and briefly explain and illustrate the manner of operating the machine, of voting a straight party ticket, of voting for candidates individually, and of voting upon questions. No fewer than three of such sample ballots shall be furnished for each voting-place.

Sample ballot.

The secretary of state shall also prepare and furnish, for each voting-place at which machines are to be used for state elections, suitable forms whereon may be recorded the following information for each machine in use:

Forms to be furnished for state elections by secretary of state.

The machine number;

The voting-place at which such machine is used;

The date of the election at which such machine is used;

The number of names checked upon the voting-list used at such election;

The number of voters registered by the machine;

The number of votes registered by the machine for each candidate, and for what office;

The number of votes registered by the machine for and against each question submitted.

Space shall be left on such form wherein may be recorded the number of votes given in for any person not a candidate at such election, and for what office. Spaces shall also be left for the signatures of the moderator, clerk, and at least two supervisors. The secretary of state shall also furnish the necessary

envelopes and adhesive labels required to be used in accordance with the provisions of section 14.

Similar forms shall be prepared and furnished by the town clerk of any town wherein machines are to be used for a town election only, whereon may be recorded like information in regard to the votes cast for each candidate or person for town offices and for and against each question submitted to the voters of the town; and such clerk shall also furnish the necessary envelopes and adhesive labels required to be used in accordance with the provisions of section 14.

Whenever machines are to be used at any voting-place in the city of Providence the officers required by this section to furnish and deliver labels, forms, envelopes, and adhesive labels shall furnish and deliver the same to the board of canvassers and registration. All printed matter, stationery, and supplies required to be furnished by this section shall be delivered to the proper officer not later than three days before the election for which they are to be used.

Party
watchers, how
appointed.

SEC. 10. The chairman of the town or city committee of any political party may, ten days before any election in such city or town at which machines are to be used, apply to the town or city clerk for the appointment of party watchers. Said clerk shall, within two days after the receipt of such application, from a list of names to be furnished by such chairman, appoint one such watcher for each voting-place at which machines are to be used. Such watcher shall have the right to visit the voting-place for which he is appointed and inspect the machines when they are being set up, arranged, locked, and sealed and prepared for the use of the voters. He shall also be admitted within the guard-rail on the

morning of election, before the opening of the polls, to witness the inspection of the machines by the moderator, but shall not remain within such guard-rail after the polls are declared open. He shall also be admitted within the guard-rail, after the polls are closed, to witness the announcement and recording of the votes registered by the machines and the final locking of the machines by the moderator. He shall not be entitled to any compensation for his services, and shall not, while within the guard-rail, either by word or action, interfere with the election officers in the performance of their duties, and any attempt on his part so to do shall be deemed good cause for his removal from the voting-place by order of the moderator. In the city of Providence such watchers shall be appointed, by the board of canvassers and registration, from a list of names submitted to said board by the chairman of the city committee of any political party for that city.

SEC. 11. It shall be the duty of any town clerk to whose custody any machines have been delivered to see that each machine is properly and safely located in the voting-place where it is to be used, and to notify the secretary of state of such location. Before the time for the opening of the polls at any election when machines are to be used he shall affix the labels to the devices on the face-plate of each machine, shall see that such devices and labels are arranged on the face-plate in accordance with the provisions of this act, that such devices are in good working order, and that the machine is properly set and adjusted and ready for use at such election. He shall also see that all of the party devices not needed in the election are securely locked, and that all the counters are set at zero and record no vote for any candidate. When he has prepared, set, and

adjusted each machine ready for use, he shall lock such machines and seal them with a special seal. He shall also see that the sample ballots are posted in some conspicuous place in the voting-place outside the guard-rail. Prior to the day of election he shall carefully instruct the election officers in regard to the locking and unlocking of each machine, the manner of operating it, of voting thereby, and of reading and recording the votes therefrom. He may appoint deputies who shall be expert mechanics to assist him in the performance of the foregoing duties, not exceeding one such deputy for every eight machines, and such deputies shall be paid the sum of ten dollars per day for each day's service, from the town treasury, upon vouchers approved by said clerk. Such deputies shall be citizens of the state, but need not be voters of the city or town in which they are to serve, and before entering upon their duties they shall be sworn to the faithful performance thereof. Said clerk shall cause to be delivered to the moderator of the elective meeting at which machines are to be used, at least five minutes before the opening of the polls, the keys of such machines in a sealed envelope upon which shall be written or printed the number and location of the voting machines, and the numbers registered on the protective counter, if any, as reported to the clerk when the machines were set up and adjusted. Such envelope shall be opened by the moderator in the presence of the other election officers and watchers, and the delivery of such keys shall be equivalent to a certificate from such clerk that the machines are ready for use. The custody of such machines shall remain in said clerk up to the time of the delivery of the keys thereof to the moderator, and said clerk shall be held fully responsible for any damage

or injury to any machine while it is in his custody, and for failure to have any machine ready for use at the time of the opening of the polls. The duties imposed by this section upon town clerks shall in the city of Providence be performed by the board of canvassers and registration.

SEC. 12. The voting-places where machines are to be used shall be equipped, by the officers now required by law to furnish and equip such voting places, with a guard-rail having one place for entrance and another place for exit, and said rail shall be so placed that only persons admitted inside said rail can approach within five feet of any machine. Any person, desiring to vote shall give his name and, if requested so to do, his residence to one of the supervisors, who shall thereupon announce the same in a loud and distinct voice, clear and audible, and if such name is found upon the voting-list the supervisor in charge of the voting-list shall repeat the said name in the same manner and the voter shall be allowed to enter the space enclosed by the guard-rail, and his name shall at once be checked upon the supervisor's list. The moderator shall thereupon direct said voter as to the machine he shall use, and said voter shall at once enter said machine, and shall vote by means of the devices, and having voted he shall leave the machine and proceed to the desk of the clerk near the exit from the enclosure. He shall then give his name and, if requested so to do, his residence to the clerk, who shall check his name upon the voting-list, and he shall leave the enclosure without delay. No voter shall remain within a machine longer than one minute, and if he shall refuse to leave it after the lapse of one minute he may be removed therefrom by order of the moderator. Besides the election officers, not more than two voters

in excess of the number of machines shall be allowed within said enclosed space at one time. In case any voter after entering the machine shall ask for further instructions concerning the manner of voting, the moderator shall appoint two supervisors, who shall give such instruction to him, and after receiving such instruction such voter shall vote as in the case of an unassisted voter. Any voter who declares to the moderator that on account of blindness or other physical disability he can not use the machine, shall, by direction of the moderator, receive the assistance of two supervisors, who in the presence of such voter and in the presence of each other shall register his vote upon the machine for the candidates of his choice. In every case where supervisors are directed by the moderator to assist or instruct a voter one of such supervisors shall be a republican and the other a democrat. No election officer assisting or instructing a voter shall in any manner request, suggest, or seek to persuade or induce any such voter to vote for a particular candidate or for or against any particular question, nor shall any such election officer give any information whatsoever in regard to the manner in which such voter shall vote.

Duty of
moderator.

SEC. 13. The moderator upon receipt of the keys of the machines at the voting-place, before the opening of the polls, shall in company with the clerk, supervisors, and party watchers, and before the opening of the polls, unlock the counter compartment of each machine and carefully examine each counter and satisfy himself that no vote is registered thereon for any candidate or question. He shall also examine the face-plate of each machine and see that it is arranged in accordance with the sample ballot, and shall satisfy himself, so far as he may do so without operating any machine, that each

machine is in good order and ready for the use of the voters. He shall thereupon close and lock the counter compartment of each machine and unlock each machine for voting and declare the polls open. During the time that the polls are open and until the machines are finally locked and sealed and the keys thereof sealed up for transmission to the town clerk, as hereinafter provided, such machines shall remain in the care and custody of the moderator, who shall see that the machine and the devices and labels thereon are not defaced or injured by any voter or any other person. During the entire time in which the polls are open for voting the doors of the counter compartment shall be kept closed and locked and the counters kept concealed, except that, if a machine shall become out of order, the moderator may have such machine opened for the purpose of making necessary repairs thereon: *Provided, however,* that whenever such machine is opened for such purpose a note thereof shall be made on the return sheet by the moderator and clerk, stating the time when said machine was opened, the length of time it was opened, and the probable trouble. If at any time after the polls are opened the voting is interrupted, by trouble with the machine, for more than five minutes, a report of such interruption and the probable cause thereof shall be made by the moderator and clerk with the returns. In case any machine, during the time the polls are opened, becomes injured so as to render it inoperative, in whole or in part, it shall be the duty of the moderator to immediately notify the town clerk, or, if in the city of Providence, the board of canvassers, and registration, and such clerk or board shall at once substitute another machine for the injured machine, and at the close of the polls the records of both

machines shall be taken. If no other machine can be procured for use at such election, and there is not another machine at the voting-place in use, the election shall continue under the provisions of law that would apply if the use of machines had not been authorized. All repairs upon machines in use at any voting-place shall be made by the expert mechanic appointed under section 11, but such repairs shall not be made to any machine that will necessitate the moving or changing of the counters which register the vote cast for any candidate or question. It shall be the duty of the moderator to remain near the entrance to the machines while the polls are open, to regulate the admission of voters thereto, but he may appoint one of the supervisors, from time to time, to relieve him in the performance of such duty. He shall also, at such intervals as he may deem proper or necessary, examine the face-plate of each machine, to ascertain whether it has been defaced or injured, to detect any wrongdoer, and to have any injury repaired.

Duties of
moderator
upon closing of
polls.

SEC. 14. Immediately upon the close of the polls the moderator shall lock the operating levers of the machine against voting and shall open the counter compartment, and in the presence of the other election officers and watchers shall proceed to read off in a clear and loud voice the vote for each candidate and upon each question as indicated by the counters, and the votes cast for persons not nominated. While the moderator is so announcing the vote, the clerk shall record the same on the forms provided for in section 9. Upon the blank form provided by the secretary of state he shall record in ink the votes cast for each candidate and person and for and against each question in the state election, and upon the blanks furnished by the town

clerk he shall record in ink the votes cast for each candidate and person and for and against each question in the town election, and the number registered on the protective counter, if any; and such records shall be known, respectively, as state election returns and town election returns. The moderator and one supervisor of each political party shall each separately compare such returns with the counters of the machine, and if they are found to agree, such moderator, clerk, and supervisor shall sign such returns. The clerk shall thereupon copy such returns in ink in the record book of the elective meeting now provided for by law, and the moderator shall compare the copy made in said book with the counters of the machine, and if they are found to agree, he, together with the clerk, shall sign such record book. At least two separate return sheets shall be made out for each machine used in the voting-place, and the records in the record book shall show the votes registered by each machine for each candidate and person and for and against each question, and the number registered on the protective counter, if any. The machine shall then be completely locked by the moderator so that the devices can not be worked nor the counters or registers changed, and the keys of the machines shall be enclosed in a stout envelope and be directed to the town clerk. The record book shall also be placed in a paper wrapper and directed to the town clerk. Such record book and envelope shall then be sealed with two or more adhesive labels affixed upon such envelope and package so that they can not be tampered with, and such labels shall be signed in ink by the moderator and clerk. Such envelope and record book shall thereupon be delivered to a police officer who shall, under orders of the town clerk, or, if in the city of

Providence, under orders of the board of canvassers and registration, remain at the voting-place until such clerk or board resumes custody of the machines. Such envelope and record book shall not be opened, after they are once sealed up in the polling-place, by any person whatsoever, except the officer to whom they are addressed.

Election re-
turns.

The state election returns shall be enclosed in a stout envelope together with the supervisors' reports, and such envelope shall be endorsed with a statement of the offices and questions to which the returns relate, the number of the machines from which such returns were taken, the voting-place where such machines were used, and the date of the election to which such returns refer. The town election returns shall be enclosed in another stout envelope, together with the supervisors' reports, and such envelope shall be endorsed with a statement of the offices and questions to which such returns relate, the number of the machines from which such returns were taken, the voting-place where such machines were used, and the date of the election to which such returns refer. Each envelope shall be sealed with two or more adhesive labels, and such labels shall be signed in ink by the moderator and clerk.

The provisions of law relating to the disposition of the ballots cast under chapter 11 of the General Laws entitled "Of elections by secret ballot," after they have been sealed up in open town meeting, shall apply in all respects to the disposition of the state election returns and the town election returns after they are enclosed in envelopes and sealed up as before prescribed, and said returns shall be of the same force and effect in determining the vote cast for any candidate and person, or for and against any

question, as would ballots cast for such candidates, persons, or for and against such questions under the provisions of chapter 11 of the General Laws, or any other provision of law in regard to elections.

When machines are used at town elections in towns not divided into voting-districts, the moderator, after announcing the votes registered by the machines for the candidates for town offices, and upon questions submitted to the voters of the town, and signing the record thereof in the record book, shall declare the result of such town election, and certificates shall be issued to the officers declared elected as is now required by law.

SEC. 15. When the machines used in any voting-place have been finally locked and sealed by the moderator after the close of the polls, the town clerk shall resume custody of such machines, either in person or through a police officer delegated for that purpose, and shall take all necessary measures to prevent such machines from being opened, tampered with, injured, or damaged, or the counters thereof changed, until such time as said clerk is notified by the proper officers that the election has in all respects been completed: *Provided, however,* that in the city of Providence such custody shall be resumed by the board of canvassers and registration of said city; *and provided, further,* that such machines may be opened, unlocked, and examined at any time by order of the state returning board after the polls are closed, and such board may issue such order whenever it deems such action necessary for the proper discharge of its duty in counting, tabulating, and declaring the votes cast at state elections, and such board may, in its discretion, issue such an order upon the petition of any town council, board of aldermen, or of the board of can-

vassers and registration, or any candidate at the said election; but no machine shall be opened upon any such order except in the presence of a member of the state returning board, who shall see that such machine is securely relocked and resealed after the investigation for which it was opened has been completed.

Model of machine may be required for instruction of voters, when.

SEC. 16. Whenever any machines purchased or leased under sections 5 and 6 are to be used for the first time in any voting-place, the person supplying such machines may be required, by the officer or body purchasing or leasing them, to furnish and equip each of such voting-places with a model for the instruction of voters. Permission may also be granted to any person, supplying machines under the provisions of this act, to furnish and use models of such machines for the instruction of voters, and such permission shall be subject to the restriction that the model machines shall be located outside the guard-rail of the voting-place in a position where their operation will not interfere with the conduct of elections, and further that such machines in the arrangement of their face-plate shall correspond with the machine or machines in use within the guard-rail. Labels shall be furnished for such model machines free of charge by the officers required to provide such labels, under section 9.

Penalties.

SEC. 17. Any public officer upon whom a duty is imposed by this act who shall willfully neglect to perform such duty, or who shall perform it in such a way as to hinder the objects of this act, shall be imprisoned not exceeding one year or fined not exceeding five hundred dollars, or both.

Penalties.

SEC. 18. Any person, not being an election officer or person upon whom a duty is imposed by this act, who, while any machine is being made ready for an

election, or is in use during an election, shall tamper with such machine, disarrange, deface, injure, or impair the same in any manner, or mutilate, injure, or destroy or disarrange any label thereon, or to be placed thereon, or any other appliance used in connection with such machine, shall be imprisoned not exceeding one year or fined not exceeding five hundred dollars, or both.

SEC. 19. Any person having the custody of a machine under this act, or any election officer, who, with intent to cause or permit any machine to fail to correctly register all votes cast thereby, tampers with, injures, or disarranges such machine in any way, or any part thereof, or who causes or consents to such machine being used for voting at any election with knowledge of the fact that the same is not in order or not properly set and adjusted so that it will correctly register all votes cast thereby, or who, for the purpose of defrauding or deceiving any voter or of causing it to be doubtful for what candidate or question any vote is cast, or of causing it to appear upon said machine that votes cast for one candidate or question were cast for another candidate or question, removes, changes, or mutilates any label on said machine or any part thereof, or does anything to defeat the will or intention of a voter in casting a lawful vote, shall be imprisoned not exceeding one year or fined not exceeding five hundred dollars, or both. Penalties.

SEC. 20. Any election officer who shall at the close of the polls purposely cause the vote registered by any machine to be incorrectly recorded or returned, as to any candidate, person, or question, or who shall knowingly cause to be made or signed any false statement, certificate, or return of any kind, of such vote, or who shall knowingly consent Penalties.

to such things or any of them being done, shall be imprisoned not exceeding one year or fined not exceeding five hundred dollars, or both.

Penalties.

SEC. 21. Whoever, with intent to defraud a voter of his vote, or to cause a voter to lose his vote, shall give in any way, or shall print, write, or circulate, or shall cause to be written, printed, or circulated, any improper, false, misleading, or incorrect instructions or advices or suggestions of how to vote by the machine, the following of which would cause any voter to lose his votes or would cause him to fail to register or record the same on the machine for the candidates of his choice, shall be imprisoned not exceeding one year or fined not exceeding five hundred dollars.

Penalties.

SEC. 22. Any unauthorized person who shall make a duplicate of, or have in his possession, a key to any machine used at any election, or any election officer who shall keep one or more of the keys to a machine and shall fail or refuse to return them immediately after the election to the officer charged by law with the duty of caring for such keys, and any mechanic who shall keep one or more of said keys after he has prepared the machines for election and shall refuse to turn said keys over to the officer charged by law with the care of said keys, and any officer charged by law with the care of said keys who shall keep such keys and refuse to deliver them over to his successor in office, shall be imprisoned not exceeding one year or fined not exceeding five hundred dollars.

SEC. 23. All provisions of law in relation to the conduct of elections not inconsistent with the provisions of this act shall apply to all elections at which machines are used, and this act shall take effect upon its passage.

powers within said district shall be such as like officers of towns in this state have in their respective towns. They may also elect fire wardens, chief engineer, and such other officers as may be needed.

SEC. 5. The qualified voters of the district, at any of their legal meetings, shall have power to order such taxes, and provide for assessing and collecting the same on the taxable inhabitants and property in said district, as they shall deem necessary for purchasing and procuring real estate, buildings, implements and apparatus, and a supply of water for the extinguishment of fire; for the purpose of furnishing and distributing water, light, and power throughout the district and beyond the same in the town of Burrillville, and for operating and maintaining any works established for the purposes aforesaid, for the payment of the current expenses of the district; the payment of such police force as they may deem necessary for the protection of the property of the inhabitants of the district from fires and the preservation of the public peace, also for the payment of any indebtedness that has been or may be incurred by the district; and such taxes so ordered shall be assessed by the assessors of said district on the taxable inhabitants and property therein according to the last valuation made by the assessors of the town next previous to said assessment, adding, however, any taxable property which may have been omitted by said town assessors or after acquired; and in all cases where the town assessors have included property within the district and property without the district in one valuation, the assessors of the district shall make an equitable valuation of that portion of the same lying within the district; and in the assessing and collecting of said taxes such proceedings shall be had by the officers of

the said district, as near as may be, as are required to be had by the corresponding officers of towns in assessing and collecting town taxes; and the collector of taxes for the said district shall, for the purpose of collecting taxes assessed by said district, have the same powers and authority as are now by law conferred on collectors of taxes for towns in this state. Said district may provide for such deduction from the tax assessed against any person if paid by an appointed time, or for such penalty by way of percentage on the tax if not paid at the appointed time, not exceeding twelve per centum per annum, as they shall deem necessary to insure punctual payment: *Provided, however,* that the tax assessed and payable in any one year under the provisions of this section shall not exceed five mills on each dollar of said valuation.

SEC. 6. Said district at any legal meeting shall have the power to enact by-laws prescribing the duties of fire wardens and of the inhabitants of said district in time of conflagration and for the purpose of enforcing the commands of the fire wardens, and appoint officers for suppressing disorder and tumult, guarding or removing property or rendering other services in time of fire, and also for the protection of water pipes, hydrants, safety valves, water gates, or other apparatus or property of or in said district, and for any breach of such by-law may provide a penalty, not exceeding a fine of twenty dollars, to be recovered for the use of said district, or imprisonment for a term not exceeding thirty days, which penalty may be enforced by prosecution on, complaint of any member of said board of fire wardens, before any court of competent jurisdiction.

SEC. 7. The fire wardens appointed by said district may order in time of fire such buildings to

be pulled down or blown up as they shall judge necessary to stop the progress of the fire; and if it shall happen that the pulling down or blowing up of any such buildings, by direction as aforesaid, shall be the cause of stopping the progress of such fire, or if the fire stop before it comes to the same, the owners shall be reasonably paid therefor by a tax on said district, the amount of which tax will be adjudged by the superior court for the counties of Providence and Bristol, which court is hereby authorized and empowered, on application to them made by the owners of property so destroyed, to adjudge as to the amount necessary and cause the same to be certified to the district, and such tax shall be assessed and collected in said district. But no building in which any fire shall break out or begin shall be paid for under this permission.

SEC. 8. Said district at any legal meeting shall have the power to appoint so many men as they may think needful to be formed into a hose company or companies and also hook and ladder company, and to make all such laws and regulations for organizing and establishing the same as they shall see fit, and the members of such company shall be exempt from jury and militia duty.

SEC. 9. Said district may hold special meetings which, as well as the annual meeting, shall be held within said district and shall be notified in such manner as the by-laws shall prescribe; and it shall be the duty of the clerk to call a special meeting on written application, signed by twelve or more taxpayers of the district; and whenever the subject of ordering a tax is to be acted on, the same shall be mentioned in the notice, unless it be the annual meeting.

SEC. 10. Said district may enact all by-laws by

SEC. 11. Said district is hereby authorized, in such manner as may seem necessary and proper, to contract for and procure light and water for the purposes specified in this act. All the powers and privileges given to said district by this act shall only be exercised subject to and in accordance with the existing franchise contract between the town of Burrillville and the Pascoag Water Company.

SEC. 12. This act shall take effect when approved by the taxpayers of the said district, in the manner provided in section three of this act.

**AN ACT TO INCORPORATE THE WESTERLY AND CONNECTICUT
RAILWAY COMPANY.**

It is enacted by the General Assembly as follows:

SECTION 1. William Segar, James M. Pendleton, R. W. Perkins, H. H. Gallup, and E. W. Jackson, their associates, successors, and assigns, are hereby made a body corporate under the name of the Westerly and Connecticut Railway Company, with all the powers and privileges and subject to the duties and liabilities applicable to such corporations set forth in Chapters 177 and 187 of the General Laws and all acts in amendment thereof or in addition thereto, and with all the powers, privileges, and immunities necessary to carry out the full intent and purposes of this act, viz.: To locate, construct, maintain, operate, and use a railway or railways for the transportation of passengers and freight, with convenient single or double tracks, switches, turnouts, and branches for cars or carriages, and with suitable and convenient poles, wires, conduits,

and other machinery, appliances, and appurtenances, in the public highways and elsewhere in and through the town of Westerly to and over the Pawcatuck river by a bridge to be constructed over the same, to a connection with the track of the Norwich and Westerly Railway Company, of Connecticut, at the state line, at the most feasible point of crossing said river between Stillmanville bridge and a point one and one-half miles north of the same, to be operated by electric or any power other than steam, between such points in such highways as shall be fixed by the town council of said town, with the assent of said corporation in writing expressed and filed with said council, and upon and over such streets and highways of said town as shall from time to time be fixed and determined by the said council, with the written assent of said corporation filed as aforesaid; and also over and on such other lands in said town, with the consent of the owner or owners thereof, as said corporation may elect to build its road, and over such other lands in said town as said corporation may acquire by condemnation, as hereinafter provided. And all tracks of said railway in the highways shall be laid at such distance from the sidewalks in said town as the council of said town and its orders fixing the route of said railway may determine, with power also to erect and maintain stations for generating or furnishing electricity or other power for operating said railway or railways, and also for furnishing light and heat for the cars, stations, and other premises and property of said corporation: *Provided, however,* that said corporation shall not lay out, construct, use, or continue said railway or railways over or through the highways in said town unless with the consent of the town council of said town, and upon compliance with such reasonable

rules and regulations as said town council may impose; *and provided*, that said railway or railways shall not cross any steam railroad at grade.

SEC. 2. The capital stock of said corporation shall not exceed four hundred thousand dollars, to be divided into shares of one hundred dollars each, and the amount of such stock shall be fixed from time to time by vote of said corporation.

SEC. 3. Said corporation may issue its bonds and other obligations in such amounts as it may see fit, from time to time, and may secure the same by pledge, pledges, mortgage, or mortgages of its franchises and property or any part thereof: *Provided, however*, that such bonds and obligations at any time outstanding and so secured shall not exceed in the aggregate four hundred thousand dollars; such bonds, obligations, pledges, and mortgages to be upon such terms and conditions and executed in such form and manner as the said corporation and its directors may by vote prescribe.

SEC. 4. The government of said corporation shall be vested in a board of directors consisting of not less than five persons, who shall be stockholders and who shall be chosen in such manner and at such times and places as said corporation shall by its by-laws prescribe.

SEC. 5. Said corporation may acquire by condemnation, from time to time, such lands and such interests and estates in lands in said town of Westerly as said corporation may from time to time take, in manner hereinafter provided, for its corporate purposes, and may locate, construct, maintain, use, and operate its railway or railways and all suitable and convenient buildings and machinery, poles, wires, and conduits, and other apparatus and appliances of

such railway or railways, upon and over the lands so acquired.

SEC. 6. Whenever said corporation shall take any lands or any interest or estate therein, under the provisions of this act, it shall file in the superior court in the county in which such lands are located a certificate containing a general description of such lands and a list of the owners thereof and the persons interested therein, so far as the same may be known to said corporation. Said certificate shall be accompanied by a plat showing the location of such lands, and shall contain a notice that said corporation will give such security as the court may require for the payment of all such costs and damages as may be finally awarded to any person interested in the lands taken in the proceedings commenced by the filing of such certificate.

SEC. 7. Upon the filing of such certificate and plat, the court shall enter an order fixing the time when and the place where all persons interested in the land in said certificate described may appear before said court and be heard with reference to the necessity of the taking of such land and the appointment of commissioners to appraise the damages sustained by them by such taking and the security to be given by said corporation for damages and costs. And the clerk of said court shall thereupon issue a notice, directed to the persons named in said certificate and to all other persons interested in said land, containing the substance of said certificate and said order, which notice shall be served by publication for such time and in such newspapers or newspaper as the court may prescribe, and in such other manner as the court may direct.

SEC. 8. At the time and place mentioned in said notice, or at any adjournment therefrom ordered

by the court, the court, after hearing the parties interested who may appear and desire to be heard, shall first determine whether the lands in said certificate described are necessary to said corporation for its corporate purposes; and if it shall determine that said lands are necessary to said corporation, said court shall proceed to fix the security to be given by said corporation for damages and costs, and appoint three suitable persons as commissioners to appraise the damages sustained by the persons interested in the lands described in said certificate by reason of the taking of said lands or of any interest or estate therein. Any vacancies in said commission which may occur from time to time shall be filled by the court upon application of any party interested in said proceedings, and upon such notice as the court may direct.

SEC. 9. Said commissioners, before they proceed to execute their duties, shall be sworn to the faithful and impartial discharge thereof, and shall give reasonable notice, by publication or otherwise, in such manner as the court may direct, to all persons interested to file their claim, if any they have, which have not been released to said corporation, with the clerk of said court within thirty days from the date of said notice. At the end of the time allowed for the filing of such claims, the commissioners, or a majority of them, shall fix a time and place for hearing all persons interested as to the damages by them sustained, and shall give notice of such hearing, by publication in such newspaper or newspapers as the court may direct, once a week for at least three weeks prior to the date of such meeting, and shall give such further notice, if any, as the court may direct. At the time and place fixed for said hearing, or at any adjournment therefrom, the commissioners,

or a majority of them, shall proceed to hear the parties interested, with their allegations and proofs, and shall examine the premises and shall estimate all such damage as they think any person interested has sustained by the taking of said lands or any interest or estate therein; and the commissioners, or a majority of them, shall make return of their doings and of the damages assessed by them, as soon as may be, to the court from which they received their appointment, with their fees marked thereon, which fees, being first allowed by the court, shall be forthwith paid by said corporation.

SEC. 10. Upon the receipt of the report of said commissioners, the clerk of the court shall open the same and shall give public notice, by advertisement for such time and in such newspaper or newspapers as the court may prescribe, that such report has been received and opened and that the same may be examined by any party interested therein, and either said corporation or any other party aggrieved by any award of damages made by said commissioners may claim a jury trial upon any item of damages thereby awarded, and may file a claim for such trial with the clerk of such court, at any time within three months from the opening of such report, and such claim shall stand for trial by jury, upon proper issues based upon such claim, as other civil cases upon the docket of such court, and shall be tried therein in every respect as other civil cases are therein tried, including the right to except to ruling and to apply for new trial for cause. But if the party claiming such jury trial shall not therein obtain an award more favorable to such party than that given by the commissioners, such party shall pay costs to the adverse party, unless otherwise ordered by the court; and if any party claiming such jury trial

shall obtain therein an award more favorable than that given by the commissioners, such party shall recover his or its costs from the adverse party, unless otherwise ordered by the court.

SEC. 11. The report of the commissioners shall be confirmed by the court after being so corrected as to conform to the findings of the jury in cases where a jury trial is claimed, and upon such confirmation, execution or executions for the damages fixed by said report, as confirmed, shall issue against said corporation, as upon a judgment in due course of law.

SEC. 12. Whenever the court shall have determined that any lands are necessary to said corporation for its corporate purposes as provided in section 8, said corporation may immediately enter upon, take possession, and use such lands for its corporate purposes: *Provided, however,* that no such entry or use shall be made or possession be taken, except for the purpose of making surveys, until said corporation shall have given security as fixed by the court, as hereinbefore provided.

SEC. 13. Said corporation may abandon any lands or any interest or estate therein, taken under the provisions of this act, by filing a notice of such abandonment in the office of the clerk of the court in which the proceedings hereinbefore provided for are pending, at any time before the confirmation of the report of the commissioners appointed to assess damages; and if said corporation shall not have entered upon, taken possession, or used the land so abandoned, or any interest or estate therein, prior to the filing of such notice of abandonment, all proceedings for the assessment of damages for the taking of the land or any interest or estate therein so abandoned shall cease, and said corporation shall pay to

any person interested in the property so abandoned all his costs and expenses, if any, incurred in prosecuting for damages for the taking of such lands or estate or interests therein up to the time of such abandonment, which costs shall be taxed by the clerk. If said corporation shall have entered upon, taken possession of, or used the lands or any interests or estates therein so abandoned prior to such abandonment, and the assessment of damages for the same is then pending before the commissioners or a jury, then upon such abandonment said corporation shall have the right to give such abandonment in evidence in diminution of damages, paying costs if the question of damages is pending upon the claim of jury trial, notwithstanding a diminution of damages in consequence of such abandonment given in evidence; or if the commissioners or a jury have finally assessed the damages, said corporation shall have the right to a revision of the assessment and to a reassessment, by petition to the commissioners, in order that the diminution of damages in consequence of such abandonment may be considered, with the right of any party interested to claim a jury trial, as in case of the original assessment.

SEC. 14. When the lands or any interest or estates therein in which any infant or other person not capable in law to act in his own behalf are interested are taken by said corporation under the provisions of this act, the court before which the proceedings for such taking are pending may appoint a guardian ad litem for such infant or other person, and such guardian may appear and be heard in behalf of such infant or other person at any stage of the proceedings. And such guardian may also, with the advice and consent of the court appointing him, release to said corporation all claims for damages

for the lands of such infant or other person or for any interests or estates therein so taken, and if there shall be any dispute as to the title of any lands or interests or estates therein taken under the provisions of this act, or as to the persons entitled to receive the damages awarded for such taking, or if the person entitled to receive such damages is uncertain or unknown, said corporation may pay such damages into the registry of the court before which such proceedings are pending with the same effect as to the title of said corporation to such lands or interests or estates therein as though such damages had been paid to the person or persons entitled to receive the same.

SEC. 15. Any court in which any proceedings under this act shall be pending may from time to time order such other and further notices to be given in addition to those hereinbefore prescribed, and may make such other orders, not inconsistent with the provisions of this act or with the general laws of the state, as may be required in the opinion of such court to protect the rights and interests of the parties interested in such proceedings, and any proceedings taken under this act may be amended or corrected at any stage, upon such terms and notice, if any, as the court may prescribe.

SEC. 16. Nothing in this act shall authorize said corporation to condemn any portion of the location of any other railroad or street railway company except for the purposes of crossing the same either above or below grade and of maintaining suitable and convenient abutments or other supports for the structures erected or constructed for such crossings, nor to exercise any of the rights, privileges, or franchises conferred upon said corporation by this act in any town in which any other street railway com-

pany has now acquired exclusive rights or franchises by virtue of any ordinance or contract authorized by Chapter 975 of the Public Laws, passed at the May session, A. D. 1891, or Chapter 77 of the General Laws, or by virtue of any special act, without the consent in writing of the corporation now holding such exclusive rights or franchises: *Provided, however,* that said corporation may cross at grade, in any public street or highway in or across which its construction may be authorized, the location or tracks of any railway not operated by steam. And no such consent shall affect the exclusive rights of any company so consenting except as to the streets and highways or parts of streets and highways to which such consent specifically applies, nor the rights, privileges, or franchises secured to the consenting company under the contract now existing between the State and such consenting company by virtue of its acceptance of the provisions of Chapter 580 of the Public Laws or any act in amendment thereof or in addition thereto. Nor shall anything in this act authorize the condemnation of any land lying within the limits of any public park or square or other public place, or any land lying within the limits of any public highway, except for the purpose of crossing such highway and subject to the public use thereof for highway purposes and to such reasonable regulations as the town council of said town may from time to time impose.

SEC. 17. The costs of all proceedings for such condemnations shall be taxed by the clerk of the court in which such proceedings are pending, and shall be paid by such corporation except as otherwise hereinbefore provided.

SEC. 18. The said railway or railways shall be constructed and maintained in the highways upon

such grade as the council of said town may prescribe; and whenever, in the judgment of said corporation, it shall be necessary to alter the grade of any street or highway so occupied by such railway or railways, such alteration shall be made at the expense of said corporation, with the assent of the council of the said town.

SEC. 19. Said railway or railways may be operated by electricity or any power other than steam, as may be from time to time determined by said corporation, and said corporation shall have the power from time to time and at all times to fix such rates of fare and freight as it may deem expedient: *Provided, however,* that no greater rate than five cents shall be charged for the transportation of any passenger between two points on the line of said corporation in any one town.

SEC. 20. The council of said town shall have the power at all times to make such reasonable regulations as to the rate of speed of the cars of said corporation upon its streets and highways, and the mode of use of its tracks upon said streets and highways within the limits of said town, as public convenience and safety may require.

SEC. 21. Said corporation shall put all streets and highways and every portion thereof over or through which it shall lay rails in as good condition as they were before the same were laid, and shall keep and maintain in repair, to the reasonable satisfaction of the town council of said town, such portions of the streets and highways as shall be occupied by its tracks, and shall be liable for any loss or injury sustained by any person by reason of any carelessness, neglect, or misconduct of its agents or servants in the management, construction, or use of said tracks or streets; and in case any judgment

shall be recovered against said town by reason of any such misconduct, defect, or want of repair, said corporation shall be liable to pay said town any sum thus recovered against it, together with all the costs and reasonable expenditures incurred by it in the defence of any such suit or suits in which recovery may be had. And said corporation shall not encumber any portion of the street or highways not occupied by said tracks, except so far as may be necessary in building, repairing, or operating its railway or railways.

SEC. 22. If any person shall willfully or maliciously obstruct said corporation in the use or operation of its railway or railways, or in the passing of its cars or carriages thereon, such person and all those aiding or abetting therein shall be punished by a fine not exceeding one hundred dollars or by imprisonment not exceeding three months.

SEC. 23. If said corporation or its agents or servants shall unlawfully or maliciously obstruct any street or highway or the passing of any carriage over the same, said corporation shall be liable to a fine not exceeding three hundred dollars.

SEC. 24. Nothing in this act shall be construed to prevent the council of said town from entering upon and taking up any of the public streets, highways, or bridges traversed by said corporation, for any purpose for which they may lawfully take up the same, and said town shall not be liable for any damages thereby occasioned to said corporation.

SEC. 25. Said corporation shall have power to purchase and hold such real estate within said town as may be convenient or necessary for the purposes for which said corporation is created, and may dispose of and convey the same.

SEC. 26. If the tracks or rails of said corporation

or any part thereof, in any street or highway, shall be abandoned or the use thereof discontinued for any cause within the control of said corporation for the term of one year, or if the right of said corporation to use and maintain such tracks or rails in any street or highway shall be lawfully terminated in any manner, such tracks and rails shall be taken up by said corporation and the street or highway where the same is so taken up shall be put in good repair at said corporation's expense; and if the tracks or rails shall not be taken up within thirty days after notice to take up the same shall have been given to said corporation by the council of said town, said town may take up the same at the cost and expense of said corporation.

SEC. 27. Said corporation is hereby authorized and empowered from time to time to acquire, by lease, purchase, or otherwise, the property, rights, privileges, and franchises owned, used, operated, or enjoyed without this state by any person or corporation owning, leasing, or operating, or authorized to own, lease, or operate, any street or other railway without this state, and may issue its capital stock, bonds, or other obligations in payment for the property, rights, privileges, and franchises so acquired, and any capital stock issued for such purposes shall be deemed full paid and non-assessable. And this corporation is also authorized and empowered to hold, use, operate, enjoy, and dispose of all property, rights, privileges, and franchises without this state, acquired as aforesaid, subject to such regulations, restrictions, and provisions as to the use and enjoyment of the same as were in force at the time when such property, rights, privileges, and franchises were acquired by said corporation; and any person or corporation holding such property, rights, privi-

leges, or franchises without this state may sell, lease, or otherwise dispose of such property, rights, privileges, or franchises to this corporation, and receive such stock, bonds, or other obligations of this corporation in payment therefor.

SEC. 28. Said corporation is also authorized and empowered to acquire, hold, and dispose of the stock, bonds, securities, and other obligations of any other street railway or railroad company incorporated in any other state, and to issue its capital stock, bonds, or other obligations, at not less than par, in payment for the same, and stock when so issued shall be deemed full paid and non-assessable.

SEC. 29. Said corporation is authorized and empowered from time to time to guarantee the stock, bonds, and other obligations, and the dividends and interest thereon, of any street railway incorporated in any other state, and may secure any such guarantee by pledge, pledges, mortgages, or mortgages of its franchises and property, or any part thereof.

SEC. 30. Said corporation may lease its railway, franchises, and property to the Norwich and Westerly Railway Company of the state of Connecticut, and shall have the right to make a contract or contracts with said Norwich and Westerly Railway Company, or with any other street railway company incorporated and operating a line of railway within or without this state, to connect its said railway with the railway of such other company at any point within or without this state for the interchange, delivery, and receipt of passengers, freight, and cars by and between said corporation and such other corporations.

SEC. 31. Said incorporators, or a majority of them, may open books for and receive subscriptions to the stock of said company and shall call the first meeting

of the stockholders of said corporation in such manner and at such time and place as they shall appoint, for the choice of directors of said corporation. If said corporation shall not be organized and any capital stock voted by it, as provided by section 2 hereof, shall not be subscribed and at least ten per centum thereof paid in within one year from the passage of this act, this act shall be void and of no effect; and if said corporation shall fail to file an application with the town council of said town of Westerly for the location of the said railway to be constructed by it, on or before January 1, A. D. 1907, or shall fail to build and complete said railroad to be constructed by it, or so much thereof as may be required by said town council, in accordance with said application, within one year from the approval of said location by said town council, the right of said corporation to construct said railway shall cease and determine.

SEC. 32. Said corporation shall be established and have an office or place of business in the town of Westerly.

SEC. 33. This act shall take effect from and after its passage.
